SUMMARY

I am an experienced web developer whose main goal is not only to create functional and attractive websites, but also to constantly improve my skills. I am committed to implementing projects both independently and in collaboration with a team. When working, I strive not only for success in the present, but also for continuous improvement in the future, adapting to constantly changing web technologies and customer needs. Effective collaboration with clients and colleagues to ensure the successful completion of projects is also important to me.

EXPERIENCE

Creating a website for a home interior design company
UAB "SIHAUS" ↗
06/2023 - 09/2023

Built a full website for home interior design successfully based on the client's instructions and wishes. I created a website design that satisfied the client and improved it where I saw an opportunity.

EDUCATION

Front-End web developer training 480h
CodeAcademy
2022 - 2023
Informal Education

I have completed these courses successfully, achieving a high level of competence and excellent results.

International Baccalaureate program
Šiaulių Didždvario Gimanzija
2020 - 2022
Secondary education
